- Save time and cost with thorough diagnosis of coding and performance issues in specific customizations

Scope

- Review of custom modules
- Review of business logic related to customization
- Identify compliance with Magento coding standards
- Upgradeability assessment

Deliverable

Custom Module Review and Recommendation Report

Magento Custom Module Review

Ensure optimal functionality, code quality, and performance of your Magento extension

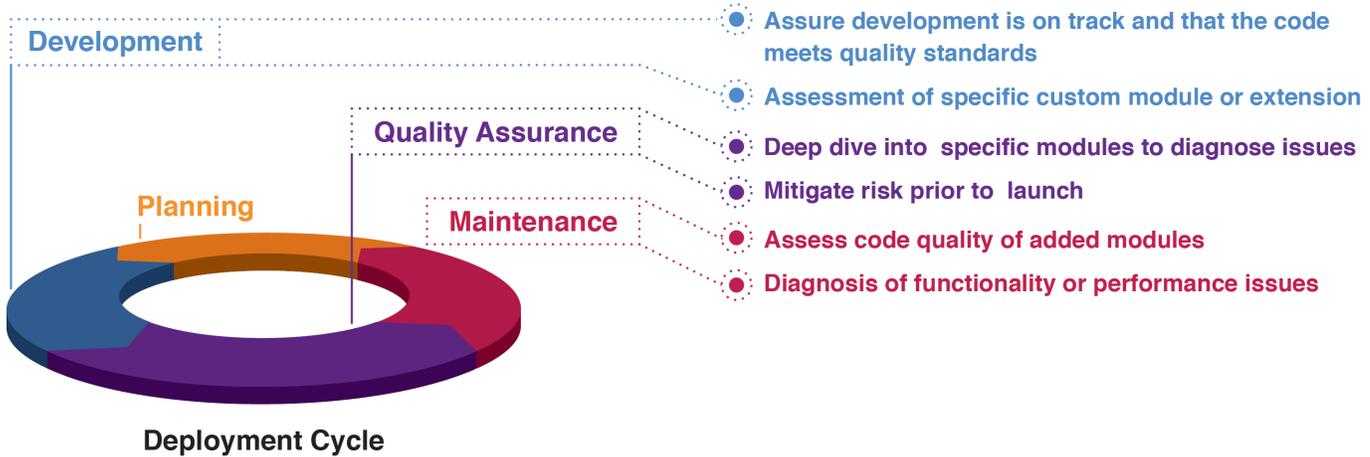

What It Is

Similar to the Magento Code Review, if a custom module isn’t performing or operating as expected, the ECG can perform a thorough code review to uncover problems and suggest corrective action. We will provide comments and recommendations related to code validation of the custom modules, operational stability, security and upgradeability issues, assess the use of best practices, and uncover existing or potential performance bottlenecks.

Who It’s For

The Custom Module Review is for organizations that have developed a new extension and want to ensure compliance with Magento best practices and standards. Or, use the Custom Module Review when you are experiencing usability or performance challenges in a specific area of your site.

When to Use Custom Module Review

Why Use the ECG

Whether you are a Magento Solution Partner or merchant, put our expertise and best practices to work for you. Leveraging direct access to Magento's product and technology development teams and drawing on experience from hundreds of successful Magento implementations, the Expert Consulting Group (ECG) consultants are uniquely equipped to provide you with the guidance needed to validate your design, development and deployment decisions. We can identify architecture and code optimization, provide direction on custom application deployments and identify performance bottlenecks.

More Information

For more information on our Custom Module Review Packaged Service or any other Magento Expert Consulting Group offering, please contact your Magento sales representative or visit...

<http://www.magentocommerce.com/services>

“ Magento's Expert Consulting Group provided guidance and support to our fast growing web presence. Two services that **yielded immediate results** came in the form of a comprehensive review of our environment which provided us with a fully documented **list of enhancements** for our development team to implement and superior client consulting that enabled our team to **accelerate projects** requiring advanced development.
